Inspiration board

TRINGS OF MUSIC WITH FABRICA

My inspiration is string instruments in which I inspired by MUSIC.

Music which symbolize the joy, peace and happiness. music can raise someones mood get them excited or more important role in every ones life as a source of entertainment. Music which includes element of pitch, rhythm, sonic qualities.

Musical instruments is a device created or adopted to make musical sounds. Musical instruments evolved step by step with changing applications and technologies.

Musical instruments are available in different shapes and compositions. There are many different types of instruments which are found in many parts of the world. But I m specially intended to show string instruments and their parts in my garment collections. I m using gold colored cords to highlight the strings by using wooden shades of fabrics.

Out of these instrumental parts I have made various types of skirts, tops and one piece. Kinds of fabric I have used: casement, cotton silk, polyster cotton, polyster corduroy.
